

## **KLU to host meet on structures**

**Vijayawada:** The Pre-Engineered Structures Society of India will organise the 'Pre-Engineered and Pre-Cast Concrete Structures Conference-2015 in KL University on March 6 and 7. According to society president P. Surya Prakash, new technologies and methods in pre-structured engineering and building of large scale houses would be discussed at the conference.

With the technologies available now, one can order pre-cast foundations, steps, slabs and even a house which can be installed in a week, Mr Prakash said.

Methodologies to be adopted from global technologies would also be discussed at the knowledge sharing workshop.
